

Gibsons Recycling awarded Best Green Business

Gibsons Recycling Depot was nominated for Small Business BC's Best Green Business award. There was an online voting component for about 170 businesses that were nominated. Once selected in the top ten, Gibsons Recycling Depot had to create a presentation on why they should win, which included past accomplishments and demonstrated how they manage their business activities. The judges then analyzed each submission and picked the top five. In the final round Buddy

and Barb from Gibsons Recycling Depot had to go and present to the judges in Vancouver. On Friday March 1 they were announced the winner.
