To Whom it may concern

Re: Gibsons Disposal

The Regional District has hired the above disposal company owned by Buddy Boyd on a number of occasions for disposal work. In particular, Mr Boyd has assisted the District with Island Clean ups in 2002 and 2003 where he also co-ordinated the work and completed these projects successfully. The local residents served by this clean up were very appreciative of Mr Boyds efforts and his work. The Regional District is satisfied with the performance of Mr. Boyd and his employees to date in assisting the district with disposal work.

If you have any questions on the above reference, please call the undersigned.

Yours truly,

SUNSHINE COAST REGIONAL DISTRICT

Chuck Steemers, A.Sc.T.,
Engineering Technician, Infrastructure Services
